 Northwest Surgeon's
 Educational Event
 of the Year
JUNE 16-19, 2010
 Sunriver Resort in Central Oregon

Overall Need Statement

Physicians and surgical care associates are required to maintain up-to-date knowledge of the latest developments in the practice of surgery to improve patient outcomes. The Oregon and Washington Chapters of the American College of Surgeons Annual Meeting features education that provides needs-based learning covering an overview of recent developments in trauma, surgical oncology, and cardiothoracic surgery including up to date basic science research in these areas. Practice management issues including quality improvement initiatives and health care reform will also be covered.

Overall Goal Statement

The overall goal of this program is to enhance participants' competence by providing the most up-to-date developments in the diagnosis, treatment and management of surgical disease and by facilitating transfer of knowledge into practice to improve patient outcomes.

Learning Objectives

Upon completion of this program, attendees should be able to:

1. Describe recent advances in nationwide cancer care databases.
2. Review quality improvement initiatives available for implementation at the participant's hospital.
3. Describe recent changes in blood transfusion guidelines for trauma and surgical patients.
4. Describe the ACS position on health care reform.
5. Review OR/WA statewide trauma prevention programs.
6. Review OR/WA statewide cancer care improvement initiatives.

Target Audience

Adult and Pediatric Surgeons, Surgical Residents and Surgical Support Staff.
